CAMP

During the September 27th CAMP lesson students will participate in a lesson on Understanding the Brain and Managing their emotions. Being aware of and managing our emotions is perhaps our most fundamental social and emotional skill set. Relationship building, successful problem solving and responsible decision making rely on it. This lesson will help students learn to access the "thinking" part of their brain to manage and use emotions to their best advantage.

The Youth Service Center is requesting clothing donations for the AEC. Accepted are khaki pants or shorts (cargo style is not allowed), plain white shirts or white crewneck sweatshirts for boys or girls in any size. At this time, we are not accepting other clothing donations. Thank you!
