

OPERATION PREPARATION

Parents/Guardians,

We need your help! In March during our Operation Preparation Activities, we will need volunteers for two of the programs.

MARCH 13th - Program 1 is an opportunity for our community members to advise/mentor our 8th grade students. A community mentor will visit with individual students to review the students' Individual Learning Plan. These one on one mentoring sessions will last approximately 20 minutes. Please visit the Campbell County Schools website to register for this program.

MARCH 20th - Program 2 is a Career Cluster Discussion Panel. Here two to three volunteers within the same career cluster will share their careers with students who have identified interest in that career cluster. The Health Services cluster, for example, might consist of a medical assistant, nurse, and surgeon. The three individuals would share information on education/training requirements, salary, hours, what they like/dislike about their career, etc. To volunteer for this program, please email Staci Kolkmeier or Linda Bates by clicking on their name to send them an email. You may also contact them by phone by calling 635-6077 and asking to speak with them. When emailing or calling, we will need your name, your current job to match with a career cluster panel, and your contact information.

We appreciate any help and time you are able to provide. Our students and community members who have participated with these activities in the past enjoy these activities and the opportunity to work with and mentor our students. We know you will also!
